

Small Talk Therapy Covid-19 Health & Safety

We are looking forward to seeing you and your child back in the clinic.

While we slowly return to normal, there are a few guidelines we need to follow in order to keep each other and other clients safe.

Before your SLT session

Please let us know if you or anyone in your household:

- is sick with anything
- is in self-isolation,
- has been overseas within 14 days
- has tested positive for Covid-19
- has been in close contact with anyone who is suspected of having Covid-19

On the day of your SLT session

- please use bathroom facilities before you leave home if it's easy to do so
- only one adult to attend with each child to allow safe distancing
- feel free to bring your own hand towel, books/toys/pens etc if you prefer
- when you arrive, please text your SLT
- wait in your car (not in the waiting room please)
- your SLT will text you when it is time for you to come into the clinic room
- make your way directly to the clinic room, avoiding touching surfaces and objects as you enter.
- face masks and hand sanitizer are available in the waiting room if you would like to use them
- stay 1 metre apart where possible

We are also doing our best to keep you and your child well. All surfaces and resources will be cleaned in between each client and your SLT will be washing/sanitizing their hands regularly throughout the session. The session will be set up so you and your child are a comfortable distance away from your SLT. Please let us know if you have any specific needs before, during or after your session.

After your SLT session

Please let your SLT know if anyone in your household or child's classroom;

- develops a cough, fever or sore throat
- is in isolation for suspected Covid-19 or tests positive for Covid-19

Teletherapy is still available for all clients who would prefer that option.
Thank you very much for helping keep us all safe.
